### Notes:

Stations noted with † are in markets where monitoring is down but is in the process of being restored.

Non-monitored stations were part of the panel when manual reporters were included. They are key stations and should be given the same status as those on the monitored panel. They will be returned to the panel at such a time as Mediaguide is able to monitor them.

To apply to become a member of a station panel or to submit corrections to information listed, email [info@jazzweek.com](mailto:info@jazzweek.com).

Market rank is based on current Arbitron information and is subject to change.

## Adds Detection Method

Starting with the July 19, 2010 issue, Mediaguide changed its method of determining adds. Previously, any new detection of a release or track would be classified as an "add." Now, a release or track must receive a minimum of seven spins on a station to be recorded as an add. This change has been implemented across all formats, not just those published by **JazzWeek**.

This should eliminate many or most "adds" created by one-time NPR features or syndicated programming.

All spins will still count and all stations playing a release will be reflected in each chart.
